—Mrs. C. D. Zook and daughter, Mary, Mrs. Anna Carry and children, Willie and Anna, are the guests of relatives in St. Joseph, this week.

—May 1st, 1893, Oren & Meyer, of New Point, will occupy their handsome new store building, and in addition to their already large stock, will add a full line of hardware. To move as little as possible, they are now making big inducements in all lines to the trade.

—C. O. Proud was attending to business in Atchison county, this week.

—W. B. Davis is improving his residence property near picket fence, etc.

—J. M. Greene has rented the Dixon place adjoining Oregon, and has facilities for pasturing a few head of cattle this season.

—J. G. Cowan, of New Point, is having his large residence painted inside and out, and the rooms handsomely repaired. As there are eleven rooms in the house it is likely that the artist, A. H. Green, will abide with Uncle Jimmie for a day or two.

—Brayton E. Davis, formerly of this city, but now a resident of Lincoln, this state, was elected city attorney of that place at the recent election. The citizens of that place have, by this action, shown their appreciation and recognition of worth and merit, and we are proud of the honor they have conferred upon one of our former citizens and ambitious young attorneys.

—What came near, and for a time, looked as if nothing could prevent a serious accident, occurred last Sunday evening, April 25, about 5 o'clock, two and a half miles this side of Forest, at the mouth of what is known as Barrett hollow. James Bush, wife and child had been visiting at the home of Mr. Bush and child being thrown out on the side of the bank, and fortunately sustaining very little, if any injury. Mr. B. escaping without a scratch. The team kept on with the running gear, up the road and across the bottom, until they arrived at home, about a mile and a half from where they started, with only the tongue and neck yoke, the remainder of the wagon being scattered along the entire route. The horses also escaped without injury.

—Chandler & Pierce, New Point, handle a nice line of fishing tackle, marbles, etc.

—For a No. 1 good syrup, either by the gallon or pail, go to George Seeman's.

—You can now get a time-piece at your own price at Fiegenbaum's, west side square.

—Painter & Bloomer, of New Point, for bargains in dry goods, boots, shoes and groceries.

—We are making a special low price on the Brown corn planter. Call and see us. J. M. Ford & Co., Forest City.

—See those fine lambon fishing poles at Phillipsburg's—the nicest, straightest, smoothest lot you ever cast your eyes upon.

—Do you want a cheap hat? If so call on Mrs. J. W. Kiehl. She wants to quit the millinery business just as soon as she can sell out.

—Call in at Nial Kunkel's jewelry store and see the latest imported, the most durable, handsome and best sewing machines on earth.

—"Uncle Jimmie, Shackelford" & Co., of Kansas City, formerly of Savannah, gave an entertainment in Forest, this week. "Uncle Jimmie" is well known in this section.

—The patrons of school district No. 2, the White district, are making arrangements looking to the building of a new school house. The present building is inadequate and is about ready to fall from age, having been built in 1880. This district was the first one organized in the county, and we are glad to see that it is about ready to get a new school building in badly needed.

—Thursday evening, April 20, 1893, the postoffice at Forest City was broken into and robbed, while the postmaster was out. The burglar was caught and sent to the Oregon jail to await trial. Most of the money, which was about five dollars, was recovered. He will no doubt be given an opportunity to wear one of Uncle Sam's "P. D." uniforms.

—The city election has been called for Tuesday May 9th and as there has been only one set of candidates nominated under the Australian ballot law, we presume there will be no opposition to the gentlemen named. In the east ward E. F. Hostetter and Levi Schulte, were nominated and in the west ward, W. H. Richards and Harry Kreek were nominated. These gentlemen are every way fitted for the duties of the office, and we do all in their power to give to the citizens a prudent and economical administration. We cannot see any reason why they should not be unanimously elected. They are tax payers and are individually interested in curtailing the expenses to the lowest possible limit and at the same time being gradually progressive.

—He who had cast aside the noxious and comforting over shoe or laid away in comfort the ungainly fur overcoat, recognized during the past week that a single robin does not make a spring any more than a single swallow makes a summer. Indeed it was apparent that the number of single robins that were to be found were indicated that winter was still with us. Otherwise the robins would not remain single, but would have taken possession. We wish the new firm success. P. X. says the drug business has been a pretty good one. He is a rustic in the lumber business, however, and will fill all orders promptly.

—Dr. Kloppe, of Forest, and a Mr. Trumbull, of St. Joseph, have purchased F. X. Kaiser's drug store at Forest, and have taken possession. We wish the new firm success. P. X. says the drug business has been a pretty good one. He is a rustic in the lumber business, however, and will fill all orders promptly.
